

Oiling syringe

Precision oil lubrication syringe with a dedicated pump head. Comes in a compact format and is suitable for oil lubrication. Easy to refill NS-series sliders. Same size for all models. Screwable protection cap.

The NS-sliders are equipped with wiper heads that include lubricated felts which slowly release oil on the raceways for a long time. The wiper heads can be recharged from the front through a dedicated access hole by means of an oiling syringe. When refilling the oil or the substituting the wiper heads, it is recommended to clean the raceways of the guide.
