Order Code

RSK R 16 05 C5 - 1000 - P0 - L - D1B - E2F -N

Nut and screw type
SFY
SFK
RSC
RSK
FSC
FSE
FDC

Direction of helix
R = Right
L = Left

Shaft diameter (mm)
06-63

Lead (mm)
01-50

Lead accuracy
C5 (standard)
C7

Total length (mm)

Clearance nut
P0 = Standard clearance
P1 = Reduced clearance
P2 = Light preload

Nut orientation
Flange towards S = short end or L = long end

Machining code - first end
See codes below

Machining code - second end
See codes below

Option keyway
N = with keyway
Without, leave blank
Only for machining end D1 and E2

Machining codes:

D0 = Cut/no machining	E1F	D2F
A = Annealing	E2F	E1WF
Z = According to drawing	D1B	E2WF
E1B	D2B	E1WFF
E2B	D1F	E2WFF

See further information under section **Standard End Journals**.
